

Prayers for the world – Corona Virus Pandemic

Today, I would like us to focus the health practitioners around the world

- In particular, we need to pray for the health ministers and health advisors all over the world. They are under immense pressure to give the 'right advise' to their respective governments regarding easing the various countries out of the lockdown.

- Some have been disregarded, others are under intense scrutiny by their governments and it is all just a bit discouraging. And the advise they give is so weighty and can be the difference between a few people and thousands of people dying, they need our prayers for wisdom and knowledge to make the right decisions.

Let us pray

- Lord, we pray for health ministers and advisors all over the world, we can't even imagine the pressure they must be under right now but we ask Lord that you give them wisdom as you did to Solomon. This virus and the way it mutates is unknown to us but our comfort is that even though it is unknown to man, it is not unknown to you. So Lord, speak through the ministers and the advisors, even if they are not Christians, that has never been a barrier for you and will never be. Cause them to do your bidding in Jesus name amen.

And finally, could we pls listen to this song for a few minutes, it talks about the sovereignty of God even in these times. Our faith is in a God who spoke to darkness, who created the world, who the stars worship, the wind bows to and who loves us fiercely. Let us take comfort in that knowledge.
